Dear Sir,

**London Power Tunnels
RE – Accommodation for our TBM Commissioning Staff**

On behalf of Costain Limited, I would like to take this opportunity to thank you and your staff for all the assistance provided in supplying excellent accommodation to our TBM commissioning staff based at our London Power Tunnels project for National Grid.

Since September 2011, over 18 different members of our staff have stayed at your establishment in Southgate, and, during this period I have not received one complaint about the quality or standard of the accommodation you provide. In fact, all of them have commented on exceptionally well appointed, clean and spacious en suite rooms. Most of our staff have worked on a shift rota basis and have enjoyed the peace and tranquillity of The Oaks Guest House and Southgate, together with the good public transport links to Central London and the motorway network.

Both you and your staff have always ensured that our commissioning team have a enjoyable and trouble free stay whilst staying at The Oaks Guest House and you have been very flexible with our demanding schedule.

We have no hesitation in recommending The Oaks Guest House to any future potential guests and, in addition, wish you continued success for the future.

Yours faithfully for and on behalf of Costain Ltd,

Gordon Alexander
Administration Manager
